

# Infrastructure Projects

Infrastructure development is an important ingredient that contributes to a better and faster improvement of physical infrastructure particularly in the Central Mindanao Campus. It helped the campus have its prodigious makeover by completing essential infrastructures like the Academic building and the gymnasium, the school canteen, water system development. These projects have even employed local skilled and un-skilled labors for construction work. .

No	Project Title	Contract Cost / Original / Revised	Name of Contractor	Remarks
01	Installation of Power Distribution Line & Communication System - Phase 1 (CY 2014)			On-going bidding works for infrastructure
	Construction of School Canteen (CY 2014)	2,839,477.05	JC dele Vega Construction	Contract Signing for Infraworks (10-17-14)

	Completion of Academic Building 1-Phase2	8,482,738.89	March, 01, 2010	Finish infraworks (contractor final bill )

# Completion of Road Network / Site Development – Phase 2

ACCESSIBILITY FOR CMC CONSTITUENTS. This has been a long-time hope for every faculty, staff, and scholar in this campus. CMC constituents and even visitors have desired for a better and faster travel to and from different points of destination—Administration building, Academic building, Dormitory building, Canteen—to transact business. These transactions demand for roads for the gathering and facilitation of inputs to respective clients.

Photo on the right shows the access road going to the newly constructed school gymnasium.

Photos on further right show the newly landscaped and developed areas fronting the school Administration building

# School Activities

All scholars have equal access to academically and developmentally enriching opportunities that will enable them to not only learn and thrive at every grade level, prepare them for work and or college as confident, and contributing adults, but also allow them to enjoy life like any other growing young individuals in the society.
