ARTICLE II – SCOPE

The CONSULTANT shall render professional services consisting generally of the following phases:

- A) Schematic Design Phase
- B) Design Development Phase
- C) Contract Document Phase
- D) Construction Phase
- E) Post-Construction/Project Completion Phase

A. ***SCHEMATIC DESIGN PHASE***

The Schematic Design Phase shall include the following detailed scope of works:

- a) Consultation with the OWNER to ascertain project objectives and requirements, site location and vicinity areas, design lines and space accommodations, construction materials and installed equipment, time schedules and appropriation costs of the project, all embodies generally in an Architect's Brief provided by the OWNER;
- b) Knowledge of and compliance with pertinent laws, ordinances, codes, rules and regulations of local government;
- c) Investigation of the site and the immediate vicinity for proper disposition of structures and utilities;
- d) Preparation of schematic design studies leading to a recommended design solution, together with a general narrative of the design concepts; and
- e) Submission to the OWNER, for comment, approval and authority to proceed further, of the schematic design studies as well as a statement of the probable construction cost of the project.

B. ***DESIGN DEVELOPMENT PHASE***

The Design Development Phase shall include the following detailed scope of works:

- a) Based on the approved schematics instruments, preparation of preliminary design studies consisting of the site development plan, the building plans in convenient scales, outline or abridged specifications, engineering schemes or systems and of such other instruments as may be deemed necessary; and
- b) Submission to the OWNER, for comment, approval and authority to proceed further of the preliminary design studies as well as an updated statement of the construction cost of the project.

C. ***CONTRACT DOCUMENT PHASE***

The Contract Document Phase shall include the following detailed scope of works:

- a) Finalize approved preliminary plans. The CONSULTANT may be required to redraw, redirect or shade the previous working drawings, if any to comply with the new requirements of the OWNER. Informing the OWNER of any changes or adjustments on previously preliminary design instruments, now embodies in the contract documents;
